

We're one of the **2.7 million** poorest families in the UK. In **2013** we lived on **£100 per week** after tax.

Now the mean family income is **5** times bigger than ours and the richest is **13** times bigger.

In **1985** the mean family income was **3** times bigger than ours, the top 10% was **7** times more.

Poorest 10%
